Prot. n°17132/2009

Camposampiero, 7th October 2009

To the kind attention of:

Mayor of Jerusalem, **Nir Barkat**

Mayor of Nazareth, **Ramez Jeraisy**

Mayor of Bethlehem, **Victor Batarseh**

Mayor of Hebron, **Khaled Osaily**

We are proud to take the great opportunity offered by this important initiative "Time for Responsibilities", which sees 400 delegates from all over Italy coming to visit Your towns for a week, to convey Our sincere and affectionate greeting to You and Your people, suffering so much because of war and uncertainty about the future.

Day by day We become more and more aware of the deep intertwining of a country's toils with the rest of the world, and that freedom, social and economic security have no boundaries, but can be conquered or lost only together.

That's why Your history is definitely Our history. Time for responsibility originates from this awareness: from the political, cultural and religious jump which emphasizes the dignity of man, the freedom to defend his own ideas and at the same time respecting other people's ones.

And this is possible and necessary everywhere, especially in Your country, where violence has provoked mourning and sorrow, raised walls and nourished hatred.

Erasing the past is not possible but building up a different future is a must. For You and for Us, together, this is a new and probably the only way to roll up Our sleeves and build a future of peace for all the people.

In these days when the international community looks at Assisi and at St. Francis' message of love and hope, We and Our people renovate Our commitment and understanding, wishing that the Middle East could finally reach peace and serenity.
